  - b. Reimbursement of CSDA Conference registration in September
  - c. February Board Meeting Re-schedule due to Farm Show
  - d. Reimbursements for Holiday Luncheon
- Meeting Adjourned

# MINUTES OF THE SPECIAL MEETING OF THE BOARD OF TRUSTEES OF THE TULARE MOSQUITO ABATEMENT DISTRICT, HELD AT THE OFFICES OF THE DISTRICT, MEFFORD FIELD, TULARE, CALIFORNIA ON THE 7th DAY OF DECEMBER 2018, AT THE HOUR OF 11:00 P.M. OF SAID DAY

Present at the meeting called at 11:04 a.m. at the place above designated were: Charlie Pitigliano, presiding, Robert Clark, Pat Nunes, Stan Creelman, and Chuck Mayer. Robert Uchita was absent. Also present at the Board Meeting were John Avila, District Manager, and Chad M. Lew, counsel for the District.

# Agenda Item No. 1: Citizen Comments.

Charlie Pitigliano opened the floor to citizen comments, but there were no comments from the public.

Agenda Item No. 2: Review Minutes of November 13, 2018, Board of Trustees Meeting. The minutes of the meeting held on November 13, 2018, were presented to the board in writing and reviewed. Upon a motion made by Pat Nunes, seconded by, Chuck Mayer, and unanimously carried, the minutes of the meeting held on November 13, 2018, were approved as presented.

Agenda Item No. 3: Additions / Approval of Agenda.

There were no additions to the agenda.

Agenda Item No. 4: Payment of Check Number 5563 - 5595, Electronic Fund Transfers (EFTPS) from Union Bank to the IRS for Social Security, Medicare and Federal Tax Payments and Union Bank Charges and Credits.

The board members reviewed the District's Union Bank checking account, check numbers 5563 - 5595, the electronic fund transfers (EFTPS) for payment of Social Security, Medicare and Federal Tax Payments to the IRS, and the electronic debit payments from the District's Union Bank account. Upon a motion duly made by Robert Clark, seconded by Chuck Mayer, and unanimously carried, the Union Bank checking account, check numbers 5563 - 5595, the electronic fund transfers (EFTPS) for payment of Social Security, Medicare and Federal Tax Payments to the IRS, and the electronic debit payments from the District's Union Bank checking account were approved.

Agenda Item No. 5: Decision to Cancel Scheduled December 11, 2018, Board Meeting. After some discussion, upon a motion duly made by Stan Creelman, seconded by, Robert Clark, and unanimously carried, the board cancelled the regular meeting of the Board of Trustees calendared for December 11, 2018.

# Agenda Item No. 6: 2018 Chemical Usage Report.

John reviewed with the board the District's chemical usage for the year ending December 31, 2018, which was also reported to Tulare County. There was some discussion related to mix of chemical used and the decreasing number of acres in the District treated aerially.

Agenda Item No. 7: Surveilance Numbers and Results for the District and State.

John advised the board that the District for the past season set 3650 mosquito traps, submitted 145 mosquito pools for testing, had 6 positive pools for West Nile Virus, had 24 positive pools for St. Louis Encephalitis Virus, and that there was one human case of West Nile Virus in the District. John also provided the board a review of the statewide report for mosquito borne surveillance.

# Agenda Item No. 8: Reappointment Status for Three Board Members.

John reported that he communicated with Board of Supervisor's office for Tulare County and was advised that the Board of Supervisors would address the reappointment of the three expiring members on the board in December 2018.

Agenda Item No. 9: Discussion on the Status of Selling the Aircraft and a Recent Inquiry from the Ukraine.

John reviewed with the board email communication he received related to an inquiry from the Ukraine about the District aircraft. He indicated that he responded to the inquiry and provided the requested information, but has not received any response thereto.

# Agenda Item No. 10: Manager's Report.

- a) Aedes Aegypti California Detection Map John reviewed with the board the Aedes Aegypti and Aedes Albopictus detection map and advised our District has detected the presence of the Aedes Aegypti, but not the Aedes Albopictus.
- b) 2017/2018 Audit Update John advised that the audit will be presented at the January 2019 meeting of the Board of Trustees.
- c) Continuing Education Proposal John advised the board that the District has received a proposal from the MVCAC for the provision of continuing education.
- d) Remodel John provided a brief update of the progress of the District's office remodel project.

# Agenda Item No. 12: Meeting Adjourned.

There being no further business to come before the board, upon a motion duly made by Pat Nunes, seconded by Chuck Mayer, and unanimously carried, the special meeting was adjourned at 11:32 a.m.

GovInvest Inc. 3625 Del Amo Blvd., Suite 110 Torrance, CA 90503

Date: September 18, 2018

John Avila, General Manager 6575 Dale Fry Rd. Tulare, CA 93274

Dear John,

Thank you for reviewing this proposal. We are submitting this letter to summarize the actuarial consulting and technology services for the Tulare Mosquito Abatement District. Through innovative solutions, the efficient use of technology, and a focus on quality, we are an outstanding choice for actuarial consulting services for the District.

We designed our software and tailor our services for potential clients like you. You are empowered to better understand your liabilities and costs and our solutions help you manage those costs into the future. We are continuously updating our software and services based on the changing public pension environment and the evolving needs and concerns of our clients.

One of our consulting actuaries will be assigned to your project. The firms we use have years of experience, meet all certification requirements, and have extensive experience in the defined benefit actuarial field.

The following sections include: GovInvest's Company Overview, Scope of Services, Implementation, Added Value, and Terms.

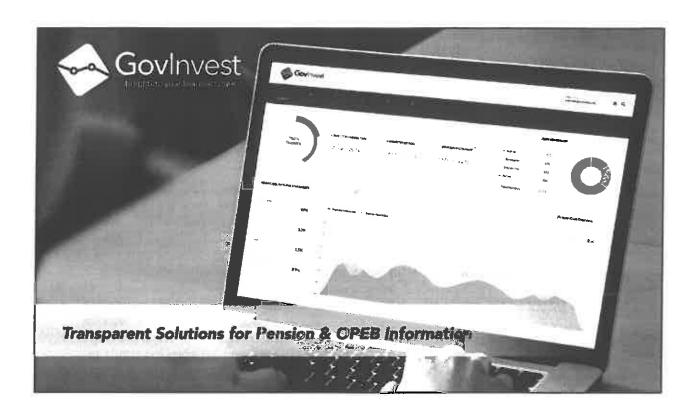

We look forward to the opportunity of working with you.

Sincerely,

Ted Price CEO (310) 371-7106

# **Proposal for Actuarial Services and Technology**

Attention: John Avila, General Manager

Prepared By: Nadia Atiqullah

Date: September 18, 2018

# Company Overview

Since 2014, GovInvest has brought together leading actuaries, engineers, and designers to build innovative technological solutions to empower government agencies to better navigate the complexities of actuarial analysis. Our solution suite consists of our cloud-based software, actuarial valuations, funding reports, accounting valuations, and actuarial consulting.

When Co-founders Jasmine Nachtigall-Fournier and Ted Price saw the actuarial valuation reports that agencies depended on to make key decisions about funding their future employee benefits, they realized how complicated, outdated, and obsolete the reports could be, and set out to build the Total Liability Calculator, a cloud-based software platform that provides our clients with real-time information, instant actuarial and financial analysis, and insights into how to pay down unfunded liabilities. By facilitating easy communication of complex information to decision-makers and stakeholders, our firm has effectively increased efficiency and education towards transparent solutions.

GovInvest's customer success team, engineers, retirement experts, and actuarial consultants are with your agency every step of the way to provide the best advice using instant analysis when you want it and quality certified reports when required. This is a relationship that no other company can offer.

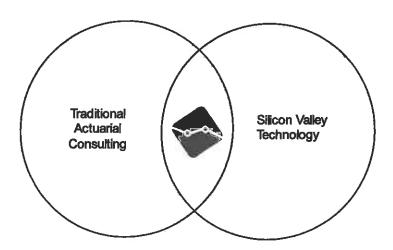

There are several qualities that differentiate our approach from other actuarial firms. These are:

- Experience: We have more depth and experience than most other independent firms. We're large enough to respond to client requests in a timely manner.
- Knowledge Leadership: We've built our firm on knowledge leadership and leveraging this
  information for our clients' benefit.
- Practical Advice: Our consultants excel at explaining complex topics in layman's terms so that our clients can make informed decisions.

We believe that all agencies, regardless of size, must address similar issues:

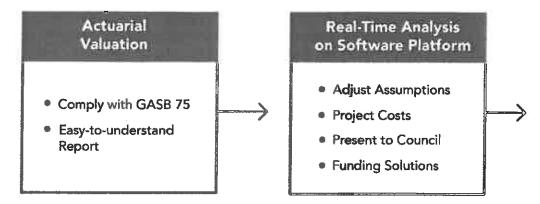

- Understanding the extent of current pension and OPEB liabilities;
- Developing strategies to control costs and prudently fund benefits; and
- Clearly communicating costs and strategies to stakeholders.

GovInvest is bringing actuarial analysis out of the dark ages.

# **Scope of Services**

#### **GASB 75 OPEB Actuarial Valuation**

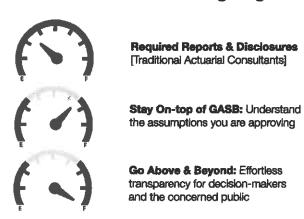

The actuarial valuation will be based on the census data provided and the actuarial and economic assumptions that are adopted. The calculations will produce the liabilities and annual plan costs on the basis of the requirements of GASB 75 using the Entry Age Normal Actuarial Cost Method or Alternative Measurement Method (if applicable). Results will be presented in a final report to be presented via webinar or in-person (travel reimbursement and consulting fees may apply).

### Total Liability Calculator - OPEB and Pension Module

District's data will be presented on the Total Liability Calculator, a comprehensive dashboard with results extremely easy to understand, convey, analyze, and interact with. The calculator makes understanding pension and OPEB information simple and intuitive, while helping decision makers and constituents get a clear picture of this important outstanding liability and the impact that economic and demographic variables have on the results.

# Other Actuarial Valuations or Accounting Reports as Needed

# **GovInvest: The Cutting Edge**

# **Implementation**

GovInvest will work with you during the collection process with a list of requirements to prepare your valuations and software. Some items needed include:

- Active, retired, deferred members census information
- Report downloads from MyCalPERS, including:
  - o Participant Appointment Details Report
  - o Benefit Recipients by Employer Report
  - o Present Employer Statement Report
- Recent actuarial valuation
- Financial statements
- Plan information
- Other items may be requested

Once we receive the requested information, the valuation and onboarding process can begin.

The following milestones outline the general steps included in valuation process:

- ✓ Request data from client
- ✓ Actuary receipt of client data
- ✓ Review the plan benefits and the census data for any missing or inaccurate information. Discuss with the District any data issues that need clarification or correction
- ✓ Substantive plan delivered to client for review
- ✓ Claims cost, census finalized
- ✓ Code information to perform a valuation
- ✓ Peer review
- ✓ Summarize results in a report and present them to the District. The report will include results, recommendations, conclusions, and visual graphics to be included in the District's Annual Financial Statements
- ✓ Submit a draft report for review and approval prior to submission of final report
- ✓ Final draft delivered
- ✓ Actuary available to discuss results

The following milestones outline the general steps included in software onboarding process:

- ✓ Request data from client
- ✓ GovInvest receipt of client data
- ✓ Preliminary data review
- ✓ In-depth review and further client discussions as necessary
- ✓ Data loading onto Total Liability Calculator software
- ✓ Final Review
- ✓ Login and portal access delivered
- ✓ Product instruction over webinar

Extra items at additional fee, If desired:

- One meeting at client's office to discuss report findings
- Completion of five-year projections of cash reimbursements

SUBJECT:

Approval of Tulare Mosquito Abatement District Conflict of Interest

Code

#### REQUEST(S):

That the Board of Supervisors:

Approve the new or amended Conflict of Interest Code adopted by the following special district:

#### **Pest Control District**

**Tulare Mosquito Abatement District** 

#### **SUMMARY:**

The Political Reform Act, Administered by the State Fair Political Practice Commission (FPPC), requires local governmental agencies to adopt a Conflict of Interest Code and update it from time-to-time to reflect changes in decision-making positions within the Agency. This includes newly added positions, deleted positions, or changes in the title or decision-making duties assigned to positions. This also includes changes in disclosure categories for designated positions.

In addition, a local government agency is required to conduct a review of its Conflict of Interest Code every even numbered year. A local government agency includes a special district of any kind, school districts, or any local board, committee, commission or agency established by State of Federal statute that has a separate legal status. Pursuant to the Act, the Tulare County Board of Supervisors is the code-reviewing body for all local government agencies whose territorial boundaries are wholly in Tulare County, and has the responsibility to see that such agencies meet conflict of

SUBJECT: Approval of Tulare Mosquito Abatement District Conflict of Interest Code

DATE: December 11, 2018

interest code requirements.

A Conflict of Interest Code is designated to cover members of boards, commissions, committees, districts and similar bodies, and administrative employees that make, or participate in making government decisions. The purpose of the Code is to prevent such officials from engaging in government decision-making in which the official may have a personal financial interest. Officials designated in an agency's code are required to file a Form 700-Statement of Economic Interests upon appointment to a designated position, upon leaving the position and on a yearly basis while performing the official functions of that position. For this reason, positions designated in the local agency's code must also be assigned a disclosure category. Disclosure categories describe the types of personal financial interests that the official must disclose in his or her Form 700-Statement of Economic Interests.

In July 2018, written notices were sent to all local government agencies within Tulare County of their obligation to conduct a Biennial Review of the agency's Conflict of Interest Code as required by law. By law, the Board of Supervisors must approve all amended or new Conflict of Interest Codes.

The Tulare Mosquito Abatement District responded that it has amended its Conflict of Interest Code since 2016 and has provided the County with the necessary supporting documents for review. This amended code meets the requirements of the Political Reform Act and can be recommended the Board for approval. Documents sent by the representative of this special district confirming compliance with applicable requirements for adopting or amending the agency's code are attached for your review.

#### FISCAL IMPACT/FINANCING:

There is no County cost associated with this request.

# LINKAGE TO THE COUNTY OF TULARE STRATEGIC BUSINESS PLAN:

The approval of the Conflict of Interest Codes helps fulfill the Organization Performance initiative by ensuring that the County and the local agencies are in compliance with the law.

# CONFLICT-OF-INTEREST CODE

# TULARE MOSQUITO ABATEMENT DISTRICT

The Political Reform Act (Government Code §§ 81000 et seq.) requires local government agencies to adopt and promulgate a conflict-of-interest code. The Fair Political Practices Commission has adopted a regulation (2 Ca. Code of Regs. § 18730) that contains the terms of a standard conflict of interest code and may be incorporated by reference in an agency's code. After public notice and hearing, the standard code may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations § 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by this reference. This regulation and the attached Appendix A (Designated Positions), and Appendix B (Disclosure Categories), shall constitute the conflict of interest code of the Tulare Mosquito Abatement District.

Persons serving in Designated Positions (Appendix A) shall file periodic disclosure statements (Form 700) with the Tulare Mosquito Abatement District, as required by law, which will make the statements available for public inspection and reproduction, upon request (Gov. Code § 81008). The original disclosure statements shall be retained by the Tulare Mosquito Abatement District

Adopted by Agency:	Date:	11-13-18.
Approved by Tulare County Board of Supervisors:	Date:

# Designated Positions

<u>Designated Positions</u> :	<u>Disclosure Category</u> :
Member of the Board of Trustees	1
District Manager	1
Operations Director	1
District Legal Counsel	1
Consultants/New Positions	*

Note: The position of District Legal Counsel is filled by an outside consultant, but acts in a staff capacity.

\* Consultants/new positions shall be included in the list of Designated Positions and shall disclose pursuant to the broadest category in the code subject tot he following limitation:

The District Manager may determine in writing that a particular consultant or new position, although a "Designated Position", is hired to perform a range of duties that is limited in scope and thus not required to fully comply with the disclosure requirement sin this section. Such written determination shall include a description of the consultant's or new position's duties and, based upon that description, a statement of the extent of the disclosure requirements. The District Manager's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code (Gov. Code § 81008).

# TULARE MOSQUITO ABATEMENT DISTRICT

# CONFLICT OF INTEREST CODE

# Appendix B

# Disclosure Categories

Category 1: Full Disclosure.

All interests in real property located entirely or partly within this District's jurisdiction or boundaries, or within two miles of this District's jurisdiction or boundaries or of any land owned or used by this District. Such interests include any leasehold, ownership interest or option to acquire such interest in real property.

All investments, business positions, and source of income, including gifts, loans and travel payments.

(Intended for board members and high-level decision-making employees with broad duties.)

<u>Category 2</u>: Full Disclosure (excluding interests in real property).

All investments, business positions, and source of income, including gifts, loans and travel payments.

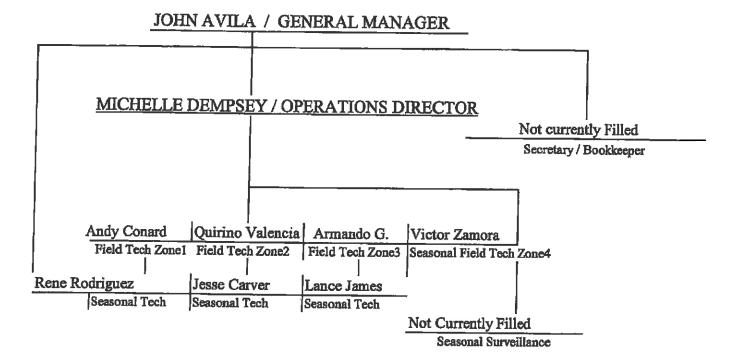

Category 3: Interests in Real Property Only.

All interests in real property located entirely or partly within this District's jurisdiction or boundaries, or within two miles of this District's jurisdiction or boundaries or of any land owned or used by this District. Such interests include any leasehold, ownership interest or option to acquire such interest in real property.

Category 4: General Contracting.

All investments, business positions, and source of income, including gifts, loans and travel payments, from sources that provide, or have provided in the last two years, leased facilities, goods, supplies, materials, equipment, vehicles, machinery, services, or the like, including training and consulting service of the type utilized by this District.

# TMAD PERSONNEL STRUCTURE 07/01/18

#### **CHAPTER 14 - JOB DESCRIPTIONS**

## 14.1 JOB DESCRIPTIONS

The position classifications of the District are:

- a. General Manager
- b. Operations Director
- c. Secretary/Bookkeeper
- d. Field Technician
- e. Seasonal Field Technician
- f. Seasonal Technician
- g. Seasonal Surveillance

A description of each position classification is included in this Chapter.

# 14.2 GENERAL MANAGER

<u>DEFINITON</u> Under authority vested in him by the Board of Trustees plan, organize and direct operations of the Mosquito Abatement District and do related work as required.

<u>POSITION CHARACTERISTICS</u> Responsibility and authority of the Manager are derived from legislature and general policies determined by the governing board.

The General Manager as administrator and executive of the Board of Trustees, provides overall direction to various operations and activities of the District, assigning details of day to day activities to operating personnel.

In addition to organizing programs for present and immediate future, the Manager provides for planning to prepare the District to adjust its operations to meet the changing vector problems resulting from the trends which can be forecast in land utilization, water project and developments, population distribution, industrial wastes disposal and recreational developments. This includes planning on a long-range basis and involves the utilization and coordination of the services of consulting engineers, community planners and other technical personnel employed by or otherwise available to the District.

#### **EXAMPLES OF DUTIES**

a. Plans, organizes, directs, regulates and reviews the operation of the District; acts for the governing board; makes continuing and periodic surveys and directs the studies of vector occurrence and problems; confers with technical and scientific personnel and develops reports and recommendations on programs and priorities for vector abatement, including evaluations of community resources, reactions and needs as they affect vector abatement; presents reports to the governing board and assists the board in the determination of general policy; prepares for board meeting agendas

# TULARE MOSQUITO ABATEMENT DISTRICT

and such documents as; lists of warrants, financial reports, resolutions, minutes and reports required for the meetings.

- b. Subject to board approval, determines and develops operating policies; defines the organizational structure, divisions and assignment of functions and lines of authority to carry out the agency's purpose, recommends salary structure and working conditions and plans and maintains an employee relations program; recruits, selects, and assigns subordinate employees; plans, directs and conducts a training program for district personnel; instructs subordinates, reviews and evaluates work and takes appropriate action to maintain an effective working force.
- c. Prepares and administers the annual budget, including analyses and justifications and presents it to the board for consideration and approval; is responsible for the establishment and maintenance of an accounting system; maintains budgetary controls over expenditures; sees that effective use is made of district property and directs the keeping of records of operations, preventative maintenance of facilities and equipment expenditures; reviews records and takes actions as indicated.
- d. Confers with attorneys and secures legal assistance as indicated; prepares, complaints including evidence on public nuisances, for action by the governing board.
- e. Coordinates the program with those of other public agencies such as drainage districts, flood control districts, reclamation districts, health departments and private organizations to effect and stimulate projects favorable to the prevention and control of mosquitoes.
- f. Plans, develops and directs a program of public relations and community education; writes articles; attends and addresses community meetings; assists schools in educational programs related to mosquito control.
- g. Keeps informed of latest developments in mosquito control and related fields; consults with State Health Departments and university extensions services and other public and private resource organizations; reads the professional literature and participates in professional organizations.
- h. Organize and conduct the source reduction program for the District; to provide consultation on land and water use as related to mosquito production; and do public relations and related work.
- Manage ground and air applications of pesticides to control mosquito breeding sources as they occur in the District.

## 14.3 OPERATIONS DIRECTOR

<u>DEFINITION</u> Under direction of the District Manager assumes responsibility and oversight of assigned operational tasks of the District including mosquito surveillance director, responsible for the placement and collection of CO2, Gravid, AGO, and BG Traps as well as OVT cups to assess mosquito populations and virus activity within the District and the detection of Invasive Aedes. Performs all other functions or duties needed to ensure the safe and effective operation of the District and it's operations, as directed by the District Manager, and acts for the District Manager, as authorized and directed by the District Manager

- a. Provide in house training and coordinate attendance at outside training for District personnel to maintain State of California, Department of Health, Vector Control Technician Category B license currency. Also coordinate training for Seasonal Operators to achieve their certification.
- b. Responsible for survey, treatment and reporting green pool breeding sources in the District.
- c. Maintain the District's computer system for mosquito source treatments and reporting to required agencies.
- d. Performs educational presentations to local schools and service groups in the community
- e. Responsible for Safety meetings for District personnel using our resources with the District's insurance entity the Special District Risk Management Authority.
- f. Responsible for the District's Surveillance program which includes trapping, counting and collecting mosquito pools for virus detection in the District
- h. Prepare the District's Annual Report in coordination with the District Manager.
- k. Gain familiarity with the District Budget process and payroll functions of the District to fill in when needed to accomplish these District functions.
- Be available as needed to cover areas of the District requiring services of a Field Technician and Seasonal Surveillance.

# 14.4 SECRETARY/BOOKKEEPER

<u>DEFINITION</u> Under direction of the Manger, the Secretary/Bookkeeper performs advanced secretarial work (including but not limited to: clerical work, receptionist, data processing), and is in charge of the office functions of a mosquito abatement agency; and does related work as required. Work also involves the application of bookkeeping skills and principals and the keeping of financial records. The person in this position usually works alone. When other subordinate clerical staff have been retained the Secretary/Bookkeeper supervises them in routine clerical work. The Secretary/Bookkeeper is a confidential employee, maintaining the District's fiscal and personnel files and serving as the Manager's secretary.

## **POSITION CHARACTERISTICS**

The Secretary/Bookkeeper acts as a confidential secretary to the Manager. The Secretary/Bookkeeper must represent the District well before the public, maintain neatness, accuracy and efficiency in conducting all work related to the duties and responsibilities of the office, and maintain currency in office technology.

- a. Plans and organizes files, other forms of record keeping, reports, and business office procedures, checks all invoices and pays bills; is responsible for payroll and associated records; sets up and maintains budgetary control and fiscal records; operational records, work load and cost data, and personnel records and devises forms as required; sets up and maintains property, equipment, repairs and service records; analyzes recorded data and prepares summary and statistical reports for the Manager.
- b. Indoctrinates and familiarizes other clerical personnel in agency functions and procedures; is responsible for the supervision of other clerical personnel; compiles and prepares statistical records used by management in evaluating the effectiveness of the agency's program; prepares operational reports such as monthly tabulations of operations.
- Is responsible for acquisition of office supplies, and maintenance of inventories; assists in the preparation of the budget; and auditing system for all agency receipts and expenditures.
- d. Sets up and maintains proper office procedures such as filing systems for correspondence, personnel, time attendance records, recording and following through on contractual agreements. Operates and maintains standard office communication equipment.
- e. Prepares material and information for Board meetings; correspondence; answers routine questions received from the general public; receives visitors to the agency and routes them to the proper destination and keeps thereof; answers phones; interviews and screens calls; arranges appointments for the Manager, as needed.
- f. The Secretary is authorized to sign such papers as necessary in the routine operations of the office, for example: Federal Exemption Certificates, routine correspondence,

# TULARE MOSQUITO ABATEMENT DISTRICT

State Compensation Reports, State Tax Reports, deposits receipts, routine financial reports, etc. and keeps the manager informed of these items.

- g. Keeps informed of current developments in secretarial, bookkeeping and office procedures; reads the professional literature and other regulatory materials as needed.
- h. Performs all other functions or duties as needed to ensure the efficient and effective operation of the District and its operations as directed by management.

# TULARE MOSQUITO ABATEMENT DISTRICT

# 14.5 FIELD TECHNICIAN

<u>DEFINITION</u> Under direction, to perform inspection and control operations in an assigned zone of the Mosquito Abatement District. Do related work as assigned such as; office duties, vehicle maintenance, mosquito identification and source reduction activity to allow operational areas of the District to function properly.

The Field Technician exercises considerable judgment in organizing and carrying out details involved in his/her assignment.

The Field Technician may be given varying degrees of responsibility for the provision of advice and assignment to property owners in the abatement of mosquito sources on their property; however controversial problems encountered will be coordinated with the Manager for resolution.

The Field Technician is responsible for scheduling his inspections and operations to effectively cover his/her assigned area and for exercising good judgment in evaluating vector producing conditions and choosing the most effective control method for a particular situation.

- a. Surveys assigned area for mosquito breeding sources, such as ponds, catch basins, marshy areas, cesspools, household drains, pastures and other crop areas. The Field Technician maintains an awareness of irrigation patterns and practices and other factors conducive to mosquito breeding and of significance to timing of operations; inspects sources for mosquito breeding, determines species and/or stages of development and notes other factors, such as terrain winds, and plant growth involved; applies pesticides as indicated, selecting appropriate material, dosage rates, and implements to obtain proper coverage and results; as needed, initiates requests for aircraft or ground application of pesticides and accomplishes monitoring necessary for effective results; keeps records of work accomplished; works with local citizens and advises regarding mosquito breeding problems, need for control, source reduction, and explains the reason for the Technician's presence on their property.
- b. Performs premise inspection, for mosquito sources; applies pesticides to infested sources, prepares inspection reports, and advises property owners regarding improper conditions; corrects situations needing attention and reports actions to the Manager.
- c. Drives automotive equipment which may be outfitted with powered and hand spray equipment; keeps equipment in working order, performs maintenance and repairs. May be assigned on an as-needed basis to lubricate automotive equipment and to assist in maintenance and repair of buildings and grounds.
- d. Prepares and revises operational maps of zones and areas in the District, including properties, ponds, topographic characteristics, and other features

relevant to mosquito control operations; records significant changes on maps and compiles data as directed on work done, types of service, costs and mosquito population history, and otherwise assists in collecting and compiling data

- e. Performs, assists or supervises small crews in the dissemination of mosquito fish and/or other biological control agents to mosquito producing habitats.
- f. Attends training sessions; reads agency manuals, and otherwise keeps informed of policies and procedures; keeps Manager informed of progress and problems, and requests consultation as required.
- g. May be assigned responsibility for operating in a specialized functional area such as premise inspections, dairy drains, septic tank and cesspool inspections, performing source surveys, light trap collection and other functions in the agency's program.

# 14.6 SEASONAL FIELD TECHNICIAN

<u>DEFINITION</u> Under direction, to perform inspection and control operations in an assigned zone of the Mosquito Abatement District. Do related work as assigned such as; office duties, vehicle maintenance, mosquito identification and source reduction activity to allow operational areas of the District to function properly. This position allows a Seasonal Technician who has completed his State of California, Department of Health, Vector Control Technician Category B certification to be employed on a seasonal basis until a full time position becomes available.

The Seasonal Field Technician exercises considerable judgment in organizing and carrying out details involved in his/her assignment.

The Seasonal Field Technician may be given varying degrees of responsibility for the provision of advice and assignment to property owners in the abatement of mosquito sources on their property; however controversial problems encountered will be coordinated with the Manager for resolution.

The Seasonal Field Technician is responsible for scheduling his inspections and operations to effectively cover his/her assigned area and for exercising good judgment in evaluating vector producing conditions and choosing the most effective control method for a particular situation.

- a. Surveys assigned area for mosquito breeding sources, such as ponds, catch basins, marshy areas, cesspools, household drains, pastures and other crop areas. The Seasonal Field Technician maintains an awareness of irrigation patterns and practices and other factors conducive to mosquito breeding and of significance to timing of operations; inspects sources for mosquito breeding, determines species and/or stages of development and notes other factors, such as terrain winds, and plant growth involved; applies pesticides as indicated, selecting appropriate material, dosage rates, an implements to obtain proper coverage and results; as needed, initiates requests for aircraft or ground application of pesticides and accomplishes monitoring necessary for effective results; keeps records of work accomplished; works with local citizens and advises regarding mosquito breeding problems, need for control, source reduction, and explains the reason for the Technician's presence on their property.
- b. Performs premise inspection, for mosquito sources; applies pesticides to infested sources, prepares inspection reports, and advises property owners regarding improper conditions; corrects situations needing attention and reports actions to the Manager.
- c. Drives automotive equipment which may be outfitted with powered and hand spray equipment; keeps equipment in working order, performs maintenance and repairs. May be assigned on an as-needed basis to lubricate automotive equipment and to assist in maintenance and repair of buildings and grounds.

- d. Prepares and revises operational maps of zones and areas in the District, including properties, ponds, topographic characteristics, and other features relevant to mosquito control operations; records significant changes on maps and compiles data as directed on work done, types of service, costs and mosquito population history, and otherwise assists in collecting and compiling data
- e. Performs, assists or supervises small crews in the dissemination of mosquito fish and/or other biological control agents to mosquito producing habitats.
- f. Attends training sessions; reads agency manuals, and otherwise keeps informed of policies and procedures; keeps Manager informed of progress and problems, and requests consultation as required.
- g. May be assigned responsibility for operating in a specialized functional area such as premise inspections, dairy drains, septic tank and cesspool inspections, performing source surveys, light trap collection and other functions in the agency's program.

# 14.8 SEASONAL SURVEILLANCE

<u>DEFINITION</u> Under direction from the Operations Director, assists in setting out traps in designated areas of the District. Does related work as assigned such as; office duties, vehicle maintenance, mosquito identification, counting of adult mosquito populations. At times he/she will assist Field Technicians in their duties as well.

Seasonal Surveillance exercises considerable judgment in organizing and carrying out details involved in his/her assignment.

Seasonal Surveillance may be given varying degrees of responsibility in trapping and other chores necessary for the District to function. Their duties will be coordinated with the Manager and Operations Director for resolution.

Seasonal Surveillance is responsible for scheduling his/her trapping and operations to effectively cover their assigned area and for exercising good judgment in evaluating vector producing conditions and choosing the most effective methods for setting out and collecting traps.

- a. The Seasonal Surveillance person will assist the Operations Director in setting up and configuring adult mosquito traps in the office. Using a District vehicle he/she will drive to the designated trapping areas and set out traps as directed. The following day(s) they will collect the traps and bring them back to the laboratory and assist the Operations Director in counting and identifying adult mosquitoes.
- b. Picking up trapping items and materials for fusions, dry ice, batteries and any other supplies needed for the scheduled trapping.
- c. Assisting Field Tech's in their duties by driving to mosquito breeding sources and treating them as directed. Sometimes checking on sources using a dipper to locate where mosquitoes may be breeding.
- d. Treating swimming pools under the direction of the Field Tech and/or Operations Director.
- e. Answering service requests from the District's constituents and assessing the situation for the responsible Technician. At times this will involve checking swimming pools and other possible breeding sources around residential areas.
- f. Assisting any senior staff member, including the Manager, in various tasks assigned to them such as the maintenance of the mosquito fish.

# 14.7 SEASONAL TECHNICIAN

<u>DEFINITION</u> Under direction, to perform inspection and control operations in an assigned zone of the Mosquito Abatement District. Do related work as assigned such as; office duties, vehicle maintenance, mosquito identification and source reduction activity to allow operational areas of the District to functional properly.

The Seasonal Technician exercises considerable judgment in organizing and carrying out details involved in his/her assignment.

The Seasonal Technician may be given varying degrees of responsibility for the provision of advice and assignment to property owners in the abatement of mosquito sources on their property; however controversial problems encountered will be coordinated with the Manager for resolution.

The Seasonal Technician is responsible for scheduling his inspections and operations to effectively cover his/her assigned area and for exercising good judgment in evaluating vector producing conditions and choosing the most effective control method for a particular situation.

- a. Surveys assigned area for mosquito breeding sources, such as ponds, catch basins, marshy areas, cesspools, household drains, pastures and other crop areas. The Seasonal Technician maintains an awareness of irrigation patterns and practices and other factors conducive to mosquito breeding and of significance to timing of operations; inspects sources for mosquito breeding, determines species and/or stages of development and notes other factors, such as terrain winds, and plant growth involved; applies pesticides as indicated, selecting appropriate material, dosage rates, and implements to obtain proper coverage and results; as needed, initiates requests for aircraft or ground application of pesticides and accomplishes monitoring necessary for effective results; keeps records of work accomplished; works with local citizens and advises regarding mosquito breeding problems, need for control, source reduction, and explains the reason for the Technician's presence on their property.
- b. Performs premise inspection, for mosquito sources; applies pesticides to infested sources, prepares inspection reports, and advises property owners regarding improper conditions; corrects situations needing attention and reports actions to the Manager.

# TULARE MOSQUITO ABATEMENT DISTRICT

- c. Drives automotive equipment which may be outfitted with powered and hand spray equipment; keeps equipment in working order, performs maintenance and repairs. May be assigned on an as-needed basis to lubricate automotive equipment and to assist in maintenance and repair of buildings and grounds.
- d. Prepares and revises operational maps of zones and areas in the District, including properties, ponds, topographic characteristics, and other features relevant to mosquito control operations; records significant changes on maps and compiles data as directed on work done, types of service, costs and mosquito population history, and otherwise assists in collecting and compiling data.
- e. Performs, assists or supervises small crews in the dissemination of mosquito fish and/or other biological control agents to mosquito producing habitats.
- f. Attends training sessions; reads agency manuals, and otherwise keeps informed of policies and procedures; keeps Manager informed of progress and problems, and requests consultation as required.
- g. May be assigned responsibility for operating in a specialized functional area such as premise inspections, dairy drains, septic tank and cesspool inspections, performing source surveys, light trap collection and other functions in the agency's program.
